Each proposal must be signed by the individual or firm making it.

2 do sciesors,

Each proposal must be signed by the individual or firm making it, and must specify a price—and but one price—for each and every article contained in the schedule, and those for paper must be accompanied by sufficient samples of each article to enable the department to judge and make selection. Should any articles be required not cumerated, they are to be furnished at the lowest market prices, according to quality. Blank forms for proposals will be furnished at the epartment to bersons applying for them; and as, without uniformity therein, the department would find it difficult to make a decision, one will be taken into consideration unless substantially agreeing herewith.

The proposals to be addressed to othe Decaration of the contract of the proposals to be addressed to othe Decaration of the contract of the Contract of the Decaration of the Decaration of the Contract of the Decaration of the Contract of the Decaration of the Contract of the Contract

erispinance. The head of the department is in all cases to decide whether the errns of the contract have been complied with, and to reject any ar-cies which may be, in his opinion, of inferior quality, as well as to must be contract upon any failure to comply with the terms within reasonable time.

[No. 606.]

Sales of Public Lands. Sales of Public Lands.

NAVY DEPARTMENT,
Bureau of Yards and Docks, June, 1858.
Scaled Proposals will be received at this Bureau until 12 delock, in., twentieth day of June, in-tant, for excayating and piling for Marine Barracks at the Brooklyn Navy-yard.

in, twentiers at the Brocklyn Navy-yard.

REPITATIONS

All the necessary excavations for the foundation walls of the buildings are to be made in the following manner, viz: a ditch 5 teet wide at the bottom is to be sunk to the depth of 2 feet below high water-mark, with sides of proper slope to prevent alipping. The probable amount of earth to be moved is some 25,000 cubic yards, and as much as may be required for backing up the foundation walls after they are built, whall be deposited on such spat convenient to the side as the commandant of the yard may select; the balance to be distributed over the graunois for the purpose of grading. In such manner as may be directed by the commandant.

**Piling: The miniber of piles to be driven for the foundations of the buildings will be some 2,000, these will be furnished by this government at the spat where they may be, in the basin on Shock island, and are to be removed from thence by the contractor at his own expose. They are to be depicte outer all the walls of the buildings in two rows. The depth to which they are expired to peaterstate it in a rows. The depth to which they are expired to peaterstate is treat 2.5 to 95 feet, but they must, in all cases, be delyen, until a hammer weighting not less than one too, and ralling 30 feet, will not move than one ince the above the above to be TENTED STATES MAIL.
